

Welcome to Chitown Custom Choppers! Your first week will focus on learning our shop workflow, meeting the team, and understanding our commitment to rider safety and product quality. New hires must complete all onboarding forms within the first 48 hours, including tax documents, emergency contacts, and the safety acknowledgment form. You will also be paired with a senior team member who will walk you through our daily opening and closing routines. By the end of the week, you should feel confident navigating the shop floor, understanding our customer service expectations, and knowing who to contact for HR or operational issues.
