

**\*\*Quarterly Inventory Audit – Q4 2024\*\***

The Q4 audit shows an average stock turnover rate of **\*\*3.4x\*\*** across all product categories.

High-demand components included drivetrain kits (112 sold), performance chains (138 sold), and stretch frames (26 units).

Slow-moving items included decorative spoke covers (8 units) and LED accent light kits (14 units).

Shrinkage for the quarter was measured at **\*\*1.2%\*\***, primarily attributed to damaged packaging during transit.

Recommended reorder quantities:

- 26" rims: +150 units
- Powder-coat supplies: +40 lbs
- Standard grips: +200 pairs

Vendor delays from Schwinn Parts Co. averaged 4–6 days beyond projected delivery windows.
