

Safety is at the core of everything we do at Chitown Custom Choppers. All team members must wear appropriate PPE—gloves, eye protection, and closed-toe shoes—when working in the build area. Only certified employees may operate welding or powder-coating equipment. In the event of an accident, employees must immediately notify a shift lead and complete an incident report. Fire extinguishers, first-aid kits, and emergency shut-off switches are located throughout the shop and must remain accessible at all times. Regular safety trainings and equipment refreshers are mandatory.
